## About

Senior Software Engineer and Tech Lead with over 17 years of experience in JavaScript/TypeScript full-stack development. Built and shipped products at Microsoft, EPAM, and Akvelon — from VS Code extensions and Azure blockchain tools to performance optimization across 30+ enterprise web apps. Comfortable leading teams of 6+ engineers, designing architecture from scratch, and owning the full delivery pipeline from CI/CD to production monitoring.

## Education

Yaroslavl Demidov  
2004 - 2009  
State University  
Mathematics and  
Computer Science
